

Project Planning
Project Milestone & Activity list

Date	31 October 2022
Team ID	PNT2022TMID26231
Project Name	Fertilizers Recommendation System for Disease Prediction

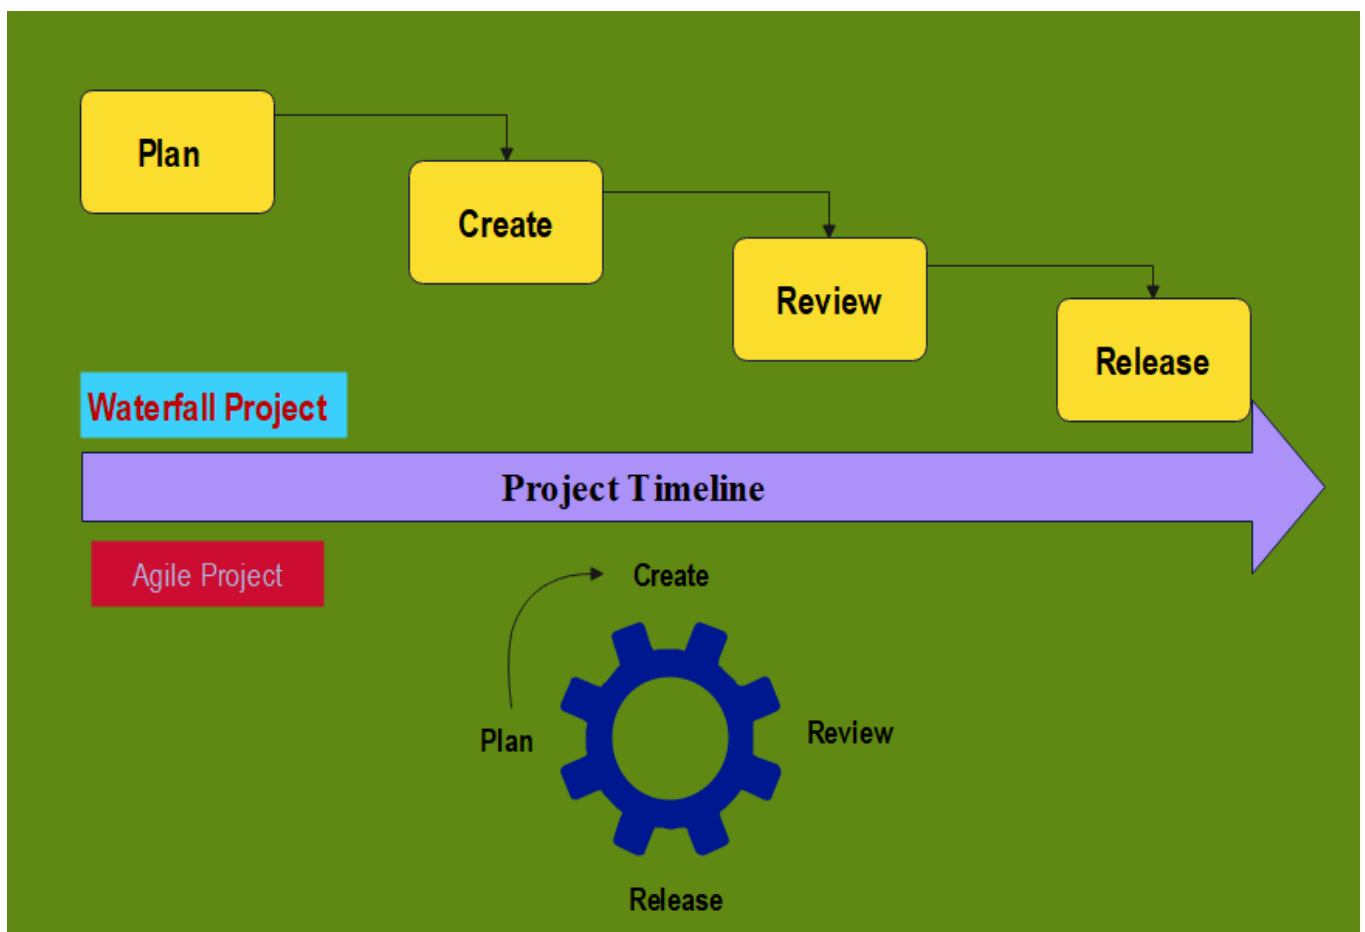

Milestone:

- The performance of artificial intelligence (AI) models has been improved and enhanced with the latest technology.
- Crop disease prediction systems help farmers protect their crops from a variety of diseases by identifying diseases within plants when capturing images and passing the names of affected diseases to machine learning algorithms. Helpful.
- The best answers for farmers are provided in this project milestone. Farmers can find the answers themselves using her web application, which has a completely user-friendly and easy-to-understand user interface.

Activity List:

- Planning plays an important role in project management as it allows team members to plan their time for the project.
- This activity shows how team members assigned and completed various tasks.
- In Project we can Split into the Four Step of Phrases are
 - **Phrase 1:** Information Collection and Requirement Analysis
 - **Phrase 2:** Project Planning and Developing Modules
 - **Phrase 3:** Implementing the High Accuracy Deep Learning Algorithm to Perform
 - **Phrase 4:** Deploying the Model on Cloud and Testing the Model and UI Performance

Agile Methodology for Activity Planning
